

FACTS ABOUT
Cats &
Dogs

By Jenny Phillips &
Sue Stuever Battel

THE GOOD AND THE BEAUTIFUL LIBRARY

Can a cat see better than you when it is dark? Yes! They see six times better than people in the dark. They can also hear and smell really well.

A cat hisses and arches its back when it is scared of something.

This cat likes to hide
in a box. It makes her
feel safe.

People have had domestic cats as pets for many years. Even 4,000 years ago, people in Egypt had pet cats. Do you have a pet cat in your home?

A kind of cat is called
a breed. There are more
than 70 breeds of cats.

Ragdoll

Siamese

Bengal

British Shorthair

When a puppy is born,
its eyes are shut. When
baby humans are born,
they can see right away.

It takes a lot of work to train a puppy. A puppy needs to learn where to go potty, what is OK to chew, and to not jump too much.

Puppies are born with no teeth. Then about 28 teeth grow in. At first, puppies eat soft food. Adult dogs have 42 teeth.

Have you seen a dog
smell the ground? A
dog can smell up to one
hundred thousand times
better than a person.

Do not go up to a dog that looks scared or mad. It might not know if you are safe. It could bite.

Dogs need good care.
They need baths, trips to
the vet, and clipped nails.

Chocolate is not good for dogs. If a dog eats a little chocolate, it can throw up. If it eats a lot, it could get very sick or even die.

e

There are more than 400
dog breeds in the world.
Which do you like best?

Poodle

Beagle

Miniature Schnauzer

Cocker Spaniel
